Dear Mr. Lipske,

Though you ignore my letters, I am writing today to ask questions concerning your gross mishandling of my case, breaches of duty, and violations of your sworn oath of office.

As you know, my false-accuser, Connie Vargovich, has been going around confessing my innocence, as has her sister, Michelle Vargovich, an eyewitness to the fact that I am falsely accused. Though you were previously told this, you have not bothered to question them. You were also provided other facts and evidence proving me falsely accused and wrongfully convicted yet you have not bothered to investigate any of that. In fact, as admitted under oath by a sheriff S deputy, there was NO INVESTIGATION either before or since my trial. That, Mr. Lipske, is gross negligence and a clear breach of duty.

Uncontested evidence proves I am wrongly convicted and a victim of crime. The entire community stands with me, appalled at the glaring perversion of justice here. Based upon the totality of facts, evidence, your own knowledge, and circumstances, you cannot plausibly deny that you know I am wrongly convicted and suffering a grave injustice. The ,only plausible answer for your refusal to investigate or assist me, and for the documented misrepresentations you've made in my case, is that you PREMEDITATED and INTENDED this wrongful conviction and knowingly engage in criminal conspiracy that continues to victimize myself, family and community. Just what other reason could there be for your ongoing, glaring, and gross breach of duty in this matter, Mr. Lipske?

this: If you are not involved in a criminal conspiracy, breaching your sworn oath, committing misconduct in office, or actively obstructing justice, then why have you not investigated anything whatsoever either prior to or since my trial and refuse to question Connie or Michelle Vargovich about their confessions? The entire community awaits your answer to this question. Your answer, if any, will be posted at www.freemyfather.com and www.freedonmiller.com. Thank you, Mr. Lipske.

Sincerely,
