Re: 07MED133

Dear Mr. Miller:

The purpose of this letter is to inform you of the results of the review of the complaint filed by you regarding Dr. E. Lanny Robins.

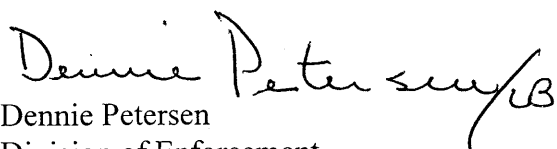

The details of your complaint, including information which may have been obtained by us, were reviewed and evaluated by a screening panel. Screening panels include members of the relevant profession, legal staff and other department staff.

The screening panel has decided the information does not indicate a violation of the Wisconsin Administrative Codes and/or Wisconsin State Statutes which regulate the practice of that profession.

As a result of the evaluation process, a decision has been made not to proceed further with your complaint. Your complaint will be retained on file in the Division of Enforcement for future reference.

Thank you for bringing this matter to our attention.

Sincerely,

Dennie Petersen
Division of Enforcement

Enclosure
